

**Proven Quality,
Responsive Service and
A Reliable Partner....**

After sales servicing of Doosan forklifts is available from both the selling dealership and Doosan's own customer service center. And Doosan provides 100% parts inventory to insure any downtime is minimized. When you own a Doosan forklift, our high quality, responsive customer support team comes with it.

The Doosan network starts with your local dealer and ends with a national team of highly qualified and experienced personnel standing ready to support all your material handling needs.

Product and specifications are subject to improvement and change without notice.

Manage your profits and performance with Doosan forklifts!

Our new GX Series will increase your productivity and lower your operating costs with features like:

- Powerful 3.3 liter diesel engine or 2.4 liter GAS /LP engine
- Economical shoe brakes
- Efficient dual element air cleaner
- Reliable powershift transmission

The GX series puts a high priority on operator's efficiency

The carefully designed, spacious operator compartment, ergonomically designed control levers and various options for ease of operation will help boost productivity levels to enhance your operational efficiency.

• Spacious Operator Compartment

Designed for comfort, with optimized pedal positions, the roomy operator compartment has an infinitely adjustable steering column and seat allowing operators to easily find their optimum driving position.

• Easy-to-Read Instrument Panel

Engine coolant temperature, transmission oil temperature, fuel level gauge and hour meter keep the driver aware of the machine's operating conditions at all times. Engine oil pressure, alternator voltage, water separator and pre-heat indicator illuminate to alert the operator to any abnormal condition.

• Wide Open Foot Steps and Grab Bar

Wide open foot steps and a conveniently positioned grab bar on overhead guard pillar make entry and exit easy.

• Deluxe Suspension Seat(Optional)

The newly developed optional deluxe suspension seat enhances operating comfort and reduces operator's fatigue during extended operation.

• Operator Sensing System

- ✓Parking alarm : Alarm warning when operator leaves the seat without applying parking brake
- ✓Seat belt indicator : Seat belt warning light for 10 seconds reminds operator to fasten seat belt
- ✓Neutral shift feature : Transmission is automatically shifted into neutral when the operator leaves the seat with the engine running and the direction lever in forward or reverse

Designed to handle the toughest applications without compromising Serviceability ease.

Doosan' goal is to make your material handling organization as efficient and reliable as possible. The durability and reliability of our trucks will aid in minimizing truck down time and help reduce total maintenance cost.

• Simple and Compact Layout Design for Easy Serviceability

The Doosan customer-centric design with its proven powertrain, and reliable hydraulic system simplifies servicing needs.

• Dual Element Air Cleaner

The large capacity, dual element air cleaner is designed to extend service interval. It allows clean and cool air into the engine intake system.

• G424P(E) Gasoline / LPG Engine

This engine provides greater torque and higher performance. The engine includes hydraulic lash adjusters which provide service free valvetrain for life of engine. A premium camshaft and balance shaft belts help not only to extend service interval but also to reduce noise.

• 3.0L Diesel Engine(4TNE94L)

This 3.0 litre diesel engine provides excellent performance for even the toughest applications. The specially optimized engine was designed with advanced computer techniques to provide low noise levels and the combustion pre-chamber, BOSCH VE injection pump and injectors provide low emission characteristics. The 4TNE94L diesel engine also complies with all Euro Stage-3A emission requirements.

• Heavy duty transaxle

Heavy duty transaxle design includes 1-speed, electric shift transmission and uses 4-pinion differential bevel gear set to transfer high torque to the drive wheels. Transmission gear is made from carbonized high alloy steel for long life.
